<b>Typically Offered</b>	Fall, Spring
<b>Enrollment Requirement</b>	Pre-Requisite: PSY or NEU major; C- or higher in PSY 110; MTH 101 or mathematics placement above MTH 101 Co-Requisite: PSY291

**Description**

An introduction to research methods in psychology. We will discuss the scientific concepts, principles, and ways of thinking that are central to the study of psychology. Topics to be covered include the goals of psychological research, ethical issues in the design and implementation of research studies, research design strategies and types of measurement, and methods of presenting data. A variety of in-class assignments will provide students with the opportunity to reflect upon the ways in which research is conducted, presented, and interpreted.
